Technology Cooperation Days 09 - 11 April 2013

Industrial Energy Efficiency

ABOUT HANNOVER MESSE

The HANNOVER MESSE is the ideal place to obtain the latest industrial know-how. Established sixty years ago, HANNOVER MESSE ranks today as the leading international showplace for industrial technologies, materials and product ideas. Energy efficiency is one of the key subjects of the HANNOVER MESSE 2013.

ABOUT TECHNOLOGY COOPERATION DAYS

The brokerage event Technology Cooperation Days is a platform for SMEs, research institutions and universities. The event helps you to find partners for technology and research cooperations and business partnerships in pre-organised one-to-one meetings.

Since its start in 2002, the Technology Cooperation Days supported more than 1500 participants with targeted bilateral meetings, resulting in numerous international partnership agreements.

In 2013 the event is organised by the Enterprise Europe Network in collaboration with C-Energy+ and GBE-Factory.

REASONS TO PARTICIPATE

- _Present your projects/ technologies/ products/ services on the event's website and in bilateral meetings
- _Learn about latest technologies, products and solutions from international participants
- _Identify partners and establish contacts for R&D, technology or business partnerships
- _Meet partners for EU-projects within the research and intelligent energy programmes
- _Get expert advice from Enterprise Europe Network, C-Energy+ and GBE-Factory staff

THEMATIC FOCUS

The Technology Cooperation Days 2013 focus on technologies and solutions to improve energy efficiency in factories and industrial production.

This includes

- _Energy efficiency & renewable energies in industrial buildings and plants
- _Energy efficiency in factories and industrial production
- _Nano- and Microtechnologies for energy efficiency
- _Material technology for energy efficiency
- _Services, advice, financing, funding for energy efficiency
- _Ideas, proposals, partnerships for projects within research and intelligent energy programmes

HOW TO REGISTER

Register with your online-profile on the event website under

www.TechnologyCooperationDays.com

The online registration is open till March 25, 2013

- _Browse through the online catalogue to identify interesting profiles
- _Request one-to-one meetings with your preferred contacts and monitor the number of your organised meetings
- _Receive meeting enquiries from other participants
- _Get your individual schedule with confirmed meetings in advance of the event

Confirmed one-to-one meetings (30 Minutes each) will take place on the EEN Brokerage Event area in Hall 2 (Stand E11 tech transfer).

ABOUT THE ENTERPRISE EUROPE NETWORK

The Enterprise Europe Network offers support and advice to businesses across Europe and helps them make the most of the opportunities in the European Union. It is made up of close to 600 partner organisations in more than 50 countries, promoting competitiveness and innovation at the local level in Europe and beyond.

ABOUT THE PROJECT C-Energy+

C-Energy+ is the network of National Contact Points (NCPs) for Energy related EU funding. NCPs support the project partner search, perform trainings and assist stakeholders in submission of high quality proposals for EU-projects. NCPs support participants from universities, research institutions, SMEs and industry. NCPs from non EU-countries are also involved in the activities of the network and offer contacts beyond the EU.

ABOUT THE IEE PROJECT GBE-Factory

A GBEF is a commercial building equipped with renewable energy sources (RES) able to meet the heating/cooling demand, and, if possible, the electricity demand of the business. The project will develop awareness and knowledge about the benefits of RES investments for the specific local contexts.
